About Coastal Switches

Coastal Switches started in 2008 as a small family owned business that originally serviced marine electrical systems. As time progressed we saw a need for certain products that were either not available or difficult to find. Then in 2015, Coastal Switches was formed and started selling hard to find electrical components, printed switch covers and custom made panels. We sell a full line of marine grade electrical components for your Boat, Truck, RV, Golf Cart, 4-wheeler and Utility Vehicles. Our components are great OEM Replacements. For our Marine line, our components are original equipment used by most boat builders and panel manufactures. We sell top brands like Carling Technologies, Blue Seas, Cole Hersee, Bussman, ETA, Mechanical Products, B.E.P. plus, many more. Our goal is to provide the best quality electrical components at reasonable prices to our customers.

Blank Switch Covers

Coastal Switches Blank Switch Covers are made from hard plastic material able to stand up to years of constant use. These covers will fit on all of the rocker switches we carry and most Carling technologies, Blue seas & Cole Hersee. This is the most commonly used switch cover for marine applications but can also be used for Cars/Jeeps/side by sides & RV applications. This switch cover will snap right on to your existing switch and can be removed with the Carling removal tool. Switch covers come in several different styles with 3 different lens options.

How to Order Custom Printed Switch Covers

Coastal Switches carries over 54 different stocked text options. If we do not carry the text you need don't worry, we can also custom print text on either Contura II or Contura III switch covers. We can print custom text vertically or horizontally orientated. See page 11 for samples.

First choose your style.

Second, choose how many Len(s) you would like.

Then choose what color Len(s), if any, you would like
RED **BLUE**

Lastly choose what "text" you would like printed.

Call us or email us and we will get it custom printed for you. Allow 7-14 business days for custom printed covers.

Samples of Custom Printed Switch Covers

Rocker Printed Switch Covers

Coastal Switches switch covers are made with hard plastic & hardy ink to stand up to years of constant use. Brand New Rocker switch covers will fit Mostly all Carling technologies, Blue seas & Cole Hersee rocker switches. These covers will fit all of the rocker switches we carry. This is the most commonly used switch cover for marine applications but can also be used for Cars/Jeeps/side by sides & RV applications. Your old switch covers are easily removed with the Carling removal tool and the new ones will snap right on to your existing switches. With over 54 different stock text to choose from, we are sure to have the one you need. If we don't, Custom Printed Covers are available upon request. Coastal Switches covers are printed with a 2-part epoxy ink that will stand up to the harsh marine environment.

Custom Engraved Switch Covers

Coastal Switches carries over 54 different Engraved stocked “text”. We can also custom engrave any “Text” on Contura V switch covers. We can Engrave both vertically or horizontally.

First, choose if Engraved “Text” or Image should be engraved Horizontal or Vertical.

Vertical

Horizontal

Second, choose how many Len(s) you would like on the cover.

1 Lens

2 Lens

Lastly choose what “text” or Images you would like Engraved.

Call us or email us and we will custom engrave the switch cover for you.
Allow 7-14 business days for custom engraved covers.

Engraved Switch Covers

Coastal Switches is known for our printed covers but we also offer engraved switch covers. Engraved switch covers are perfect for the most extreme environments and the most demanding customers. These covers are cut to perfection every time with our CNC Laser so the text can never fade. Engraved covers are only available for contour V. Custom Laser engraved switch covers are also available.

Acrylic Switch Panels

Coastal Switches offers stock panels and custom made panels. Not only do we make panels but we will fill your panels and pre-wire the panel so all you have to do is drop the panel in your boat and connect your items. All of our panels are made out of marine grade UV resistant acrylic material.

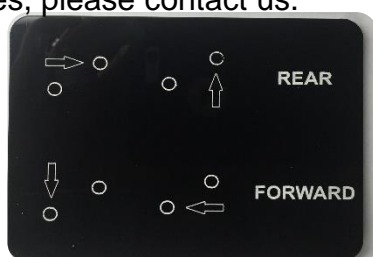

Stock Panels

Stock Panels are available in precut sizes with cutouts for rocker or toggle switches ranging from 1-20 switches, breakers, 12v outlets and USB outlets. All precut panels are made with 3/16" white or black marine grade UV resistant acrylic material, and are ready to ship next day.

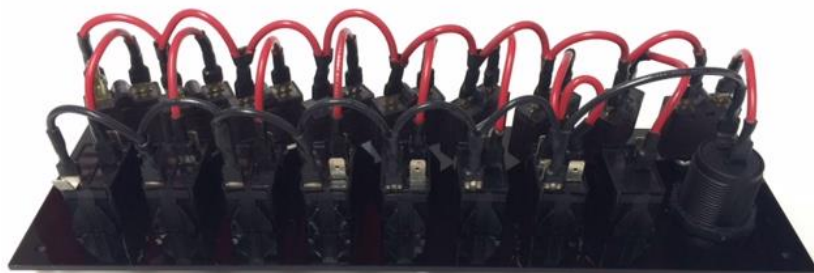

Custom Panels

These are our fully custom built switch panels/gang panels/breaker panels or any other panel you need. You chose the size, shape, color, and the cutouts for your panel. You can even add your boat name, boat logo, or even have your panel rear engraved and backlit. For quotes, please contact us.

Fill My Panel

You may choose to purchase just a panel or we can fill your panel with the highest quality electrical components. Whether you purchase a stock or a custom panel, this option is available to you. We can even prewire your panel for you, so all you have to do is drop the panel in your console and connect your items.

Toggle Switch Stock Panels

Coastal Switches manufactures their own panels. Stock panels are made with 3/16" marine grade UV resistant acrylic material available in black or white. For white panels add W after the part number and for Black panels add B after the part number. Stock panels **do not** include switches, breakers or accessories. Stock Panels are only the panels with cutouts.

Switch Panels Only, No Components Included.

Stock Rocker Switch OEM Replacement Horizontal Panels

Coastal Switches manufactures their own panels. Stock panels are made with 3/16" marine grade UV resistant acrylic material available in black or white. For white panels add W after the part number and for Black panels add B after the part number. Stock panels **do not** include switches, breakers or accessories. Stock Panels are only the panels with cutouts.

Fuse Blocks

Costal Switches fuse blocks are manufactured by blue seas. Fuse blocks below use ATC fuses. Fuses are not included and are sold separately located on page 44. These fuse blocks consolidate branch circuits and in line fuses. These blocks can be used with ring or spade style connectors. Screw size #8-32

Sku	Blue Seas Part Number	Circuits	Max Amp	Max Voltage	Mounting Screws	Negative Stud	Positive Stud	Price
